BROAD STREET BRIDGE
On US 40 Over the Scioto River
Columbus
Franklin County
Ohio

HAER NO. OH-72

Photographer: All views, Fredrik Marsh

October 1989

- OH-72-1 An elevated view of the east approach looking west from the Leveque Tower showing Veterans Memorial Auditorium on the right and a portion of Central High School on the left.
- OH-72-2 A panoramic view of the historical district as seen from the top of the Waterford Towers. This picture shows the Town Street bridge in the foreground, the Broad Street bridge in the background, Central High School on the left and the Columbus skyline on the right (facing north), and Bicentennial Park just below.
- OH-72-3 Panoramic view of Broad Street bridge in foreground and a major portion of the historic bridge. As seen from the top of the American Electric Power building looking south.
- OH-72-4 A river level view of the Broad Street bridge and Columbus skyline from the railroad truss north of the bridge.
- OH-72-5 An elevated view of the south face of the Broad Street bridge looking northwest from Civic Center Drive.
- OH-72-6 An elevated view of the south face of the Broad Street bridge showing the Amphitheater Park on the left, a portion of City Hall on the right, and the Old Federal Building in the background with the American Electric Power building behind it.
- OH-72-7 The north face of the Broad Street bridge as seen from Veterans Memorial Auditorium, located on the west bank of the river.
- OH-72-8 The entire south face of the Broad Street bridge as seen from the flood levy in front of Central High School.
- OH-72-9 The southeast face of the Broad Street bridge with City Hall in the background as seen from Amphitheater Park.
- OH-72-10 A typical close-up view showing the details of an arch, spandrel wall, railing, and pilaster pier treatments on the south face.
